3dEYE Inc.

Since 2014 3dEYE has been empowering security industry to connect, migrate and scale IP camera installations and IoT devices to the AWS or private cloud and orchestrate multiple systems integrations. 3dEYE is a cybersecure pure cloud video management platform with no server/bridge purchase and installation necessary. The platform is camera-agnostic (including body-worn cameras, drones, mobile trailers, etc.) and ideal for multi-site and multi-brand deployments to achieve true AI-fueled proactive security and power your operators to investigate smarter and faster. The platform features admin panel, alarm station, video portal and AI analytics including heat mapping, object detection, classification and tracking, face recognition, hard hats and PPE detection, ALPR, people counting, color search. <https://www.3deye.me/>

Smart Reservoir Inc.

Smart Reservoir Inc. has been a world leader in hydraulic sealed-airless reservoirs since 2007. Proudly the flagship design (VVR400) was rigorously tested in all conditions between 2002 and 2005, before entering in its first field applications. Because of its unique concept, Smart Reservoir obtained during the design period many patents. To this day, hundreds have been installed all around the globe on a multitude of applications. Our reward is to offer creative solutions where classic methods are impractical.
