

# I. | Our History

## 1. Just Wills Plc

Founded in 1989, Just Wills has grown into the largest Will-writing company in the UK with over 200 outlets. Their service allows clients to access the best possible estate planning advice in conjunction with their UK network of professional advisors.

As a direct result of the evolving needs of their clients, their portfolio has expanded over the years to include trustee-related services in addition to the drafting of other specialized legal documents.

As is common with many businesses, their range of services has evolved to meet the ever-increasing estate planning needs of our clients. They are also able to provide a number of will related services via their UK network of consultants including business services and powers of attorney.

## 2. JW Legal Consultants LLC

JW Legal Consultants LLC was initially a franchise of Just Wills Plc which was incorporated (UAE) in July 2005 as the first company in the UAE to offer such a service. We are based in Abu Dhabi, however we deal with clients from all over the 7 Emirates and benefit from strong ties with Just Wills Plc in the UK. We now have exclusive rights for expansion into the GCC region.

We are a specialist Will Writing Company dedicated specifically to drafting Wills and offering related advice. We have recently started drafting Hiba (lifetime gift) contracts (mainly for Muslims) and have already applied the same.

Our service is comprehensive, and we offer an end to end, including Arabic translation and requisite Ministry stamps. Our own company stamp precludes the need for our clients having to get their wills attested by their Embassy. We also offer our clients peace of mind by acting on their family's behalf post death in having their Wills executed.

Our clients are varied and numerous and we work both with individuals and corporate entities such as:

		
		
		
		
		

Our Wills have been approved by the Islamic Affairs and Charitable Affairs Department of the United Arab Emirates, the Shariah Courts of Pakistan and the Dar al Iftaa of Leicester, United Kingdom.

## IV. | Testimonials

*'The thought of drawing up wills for my husband and I initially seemed a daunting prospect which admittedly we kept avoiding, with its confusing legal implications especially when residing outside our country of birth. However, Mohammad from Just Wills showed incredible patience and understanding to take time to explain the necessary procedures in a simplified manner which we could understand clearly without the use of legal jargon. Since having the original wills drawn up a few years ago we have since had them updated which again was carried out with absolute efficiency and professionalism taking into consideration the updated legislation. I would like to show my appreciation to Mohammad and the Just Wills team in their faultless knowledge in their product and customer service.*
